

Prep and 1/2 'Going Further' Maths Tasks – OPTIONAL

Below, we have recommended two resources that you can use if you are looking to do additional maths activities with your child.

We have selected these resources, as they are not only educational, but they are also engaging. These are optional activities. Please use them if and when you want!

Mathletics:

With hundreds of curriculum-aligned lessons and activities, Mathletics is a comprehensive online learning tool that makes learning maths fun!

The Explore and Rainforest Maths sections have great activities, videos and games that can be accessed by families at any time. [Click here](#) to see a short video about how to access these areas of Mathletics

Every child at Highvale Primary School has a subscription to this online service. Please contact your classroom teacher if you do not have your child's username and password.

Topmarks Games:

Topmarks offers a range of engaging games to help your child strengthen their fluency in different areas of Mathematics. Below, we have listed our recommendations for games to help your child develop understanding and fluency when learning about Counting and Place Value.

Counting and Sequencing:

- [Teddy Numbers](#)
